The Legal Sector Challenge

Client Data Protection Requirements:

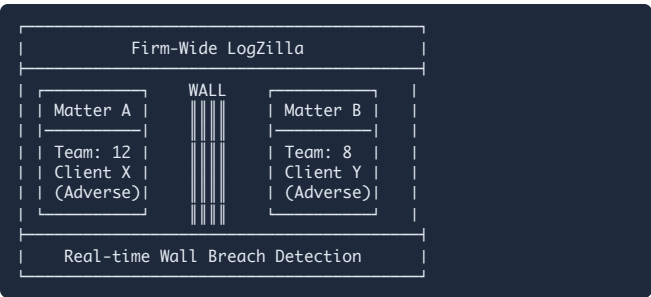

- Attorney-client privilege: Absolute protection required
- Ethical walls: Conflict isolation enforcement
- eDiscovery obligations: Litigation hold compliance
- Ransomware targets: Law firms are high-value
- Bar requirements: State ethics rules on data

The AI Advantage

Legal-Aware Intelligence:

- Privilege monitoring: Access anomaly detection
- Ethical wall enforcement: Breach alerts
- eDiscovery support: Litigation hold evidence
- Insider threat: Departing attorney monitoring
- Compliance reporting: Bar and client audits

Ethical Wall Architecture

**Wall Breach Alerts:** LogZilla monitors document access, email, and system activity to detect and alert on potential ethical wall violations in real-time.

AI-Powered Privilege Protection

**Security Analyst prompt:** "Show all anomalous access to privileged client matters in the last 24 hours."

PRIVILEGE PROTECTION ANALYSIS
