

LogZilla for State, Local, and Education

Consolidate Agencies, Reduce Costs, Protect Citizens

70-90%

Cost Reduction

Multi-Agency

Consolidation

CJIS

Compliant

AI

Copilot Included

The SLED Challenge

Public Sector Constraints:

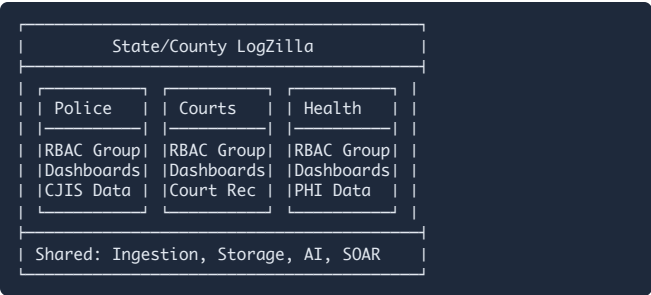

- Budget pressure:** Do more with less every year
- Siloed agencies:** Separate tools, no visibility
- Compliance burden:** CJIS, state privacy laws
- Ransomware targets:** Government is #1 target
- Staff shortages:** Compete with private sector

The AI Advantage

Government-Ready Intelligence:

- Multi-agency visibility:** One platform, all departments
- Cost consolidation:** Eliminate duplicate tools
- AI-powered analysis:** Junior staff do senior work
- Compliance automation:** Audit-ready reports
- Ransomware defense:** Early warning detection

Multi-Agency Architecture

**RBAC Isolation:** Each agency sees only their data. Shared infrastructure, separate visibility. CJIS data stays with law enforcement.

Typical SLED Deployment

Public Safety	Services	Education & Admin
<ul style="list-style-type: none"><li>Police/Sheriff (CJIS)</li><li>Courts &amp; Justice</li><li>Fire/EMS</li></ul>	<ul style="list-style-type: none"><li>Health (HIPAA)</li><li>Human Services</li><li>Public Works/Utilities</li></ul>	<ul style="list-style-type: none"><li>K-12/Higher Ed (FERPA)</li><li>Finance/HR</li><li>IT/Administration</li></ul>

Cost Consolidation Example

Before LogZilla

Agency	Current Tool	Annual Cost
Police Dept	Splunk	\$180,000
Courts	ELK Stack	\$45,000
Health Dept	Graylog	\$35,000
IT Dept	SolarWinds	\$28,000
Schools	None	\$0
Total		\$288,000

After LogZilla

Component	Coverage	Annual Cost
LogZilla Platform	All agencies	\$85,000
AI Copilot	Included	\$0
CJIS Support	Built-in	\$0
Support	24/7	Included
Total		\$85,000

Annual Savings: \$203,000 (70%)

AI-Powered Public Safety

**Security Analyst prompt:** "Show all ransomware indicators across county systems in the last 24 hours."

COUNTY-WIDE RANSOMWARE SCAN  
Period: Last 24 Hours | Agencies: 12 | Events: 847M

INDICATORS DETECTED: 2

1. SUSPICIOUS ACTIVITY - Sheriff's Office
- Host: WS-SHERIFF-047
- Behavior: Unusual file encryption pattern
- Files Affected: 23 (contained)
- Status: ISOLATED - Investigating
2. PHISHING CAMPAIGN - County Clerk
- Target: 47 email addresses
- Subject: "Tax Refund Notification"
- Attachment: invoice.pdf.exe
- Status: BLOCKED - 0 clicks

PROTECTED SYSTEMS:

Police/Sheriff: 847 endpoints ✓

Courts: 234 endpoints ✓

Health: 156 endpoints ✓

Schools: 2,341 endpoints ✓

Admin: 423 endpoints ✓

AI Use Cases for SLED

Use Case	Traditional	With AI
Cross-agency threat hunt	Not feasible	Real-time
CJIS audit evidence	Weeks	Minutes
Incident investigation	Days	Minutes
Budget justification	Manual	Automated
Compliance reporting	Quarterly	Continuous

Compliance Support

- CJIS: Supports law enforcement requirements
- State Privacy: Configurable per jurisdiction
- HIPAA: Supports health data requirements
- FERPA: Supports education data requirements

Public Safety Integration

**911 Dispatch prompt:** "Correlate CAD events with network activity for incident #2024-12847."

INCIDENT CORRELATION: #2024-12847  
Type: Structure Fire | Location: 123 Main St

TIMELINE:

14:23:01 - 911 Call received (CAD)

14:23:15 - Units dispatched: E1, E3, L1

14:23:18 - Traffic signal preemption triggered

14:24:02 - Building alarm system: FIRE ALARM

14:24:15 - HVAC system: Emergency shutdown

14:25:47 - First unit on scene

14:26:12 - Water main valve opened (SCADA)

CORRELATED SYSTEMS:

✓ CAD/RMS (Police/Fire)

✓ Traffic Management

✓ Building Automation

✓ Water/Utilities SCADA

RESPONSE TIME: 2 min 46 sec (target: 4 min)

Smart City Integration

System	Integration
CAD/RMS	Syslog/API
Traffic Management	SNMP/Syslog
Building Automation	BACnet/Syslog
Water/Utilities	SCADA Logs
Body Cameras	Metadata
License Plate Readers	Event Logs

Procurement Options

- NASPO ValuePoint: Multi-state contract
- State Contracts: Check your state
- Cooperative Purchasing: OMNIA, Sourcewell
- Direct: Competitive bid support

Deployment Options

On-Premises

- County/city data center
- Full data control
- CJIS compliant
- No cloud dependency

Government Cloud

- AWS GovCloud
- Azure Government
- Customer-managed
- Scalable architecture

Hybrid

- CJIS data on-prem
- Other data in cloud
- Best of both
- Flexible architecture

Why SLED Organizations Choose LogZilla

Metric	Improvement
Tool consolidation	70-90% savings
Cross-agency visibility	Unified
Compliance audit prep	90% faster
Ransomware detection	Real-time

SLED-Specific Benefits:

- Budget-friendly: Consolidate and save
- Citizen protection: Better security posture
- Staff efficiency: AI handles complexity
- Compliance: CJIS, HIPAA, FERPA ready

## Integration Ecosystem

### Public Safety Systems

- CAD/RMS Systems
- Records Management
- Dispatch Systems
- Access Control
- Video Management

### Infrastructure

- Firewalls (Palo Alto, Cisco)
- Switches & Routers
- Wireless Controllers
- VPN Concentrators
- Load Balancers

### Applications

- ERP Systems
- Active Directory
- Email (M365, Google)
- Databases
- Cloud Services

## Compliance Automation

Framework	Capability
CJIS Security Policy	Supports access logging, audit trails, encryption
HIPAA	Supports PHI access monitoring, breach detection
FERPA	Supports student record access tracking
PCI-DSS	Payment system log collection
State Privacy Laws	Configurable per jurisdiction

### Audit-Ready Reporting:

- Pre-built compliance dashboards
- Automated evidence collection
- Scheduled compliance reports
- Auditor-friendly exports
- Historical data retention

## Getting Started

### Implementation Timeline

Phase	Duration	Activities
Discovery	1-2 weeks	Agency inventory, requirements
Pilot	2-4 weeks	Single agency deployment
Expansion	4-8 weeks	Additional agencies onboarded
Optimization	Ongoing	AI tuning, automation

### Quick Start Checklist

- Identify pilot agency/department
- Review current tool spending
- Map compliance requirements
- Define success metrics
- Schedule kickoff meeting

### Pilot Program

#### 30-Day Proof of Value:

- Deploy in one agency/department
- Ingest real production logs
- Demonstrate AI capabilities
- Measure cost savings potential
- No long-term commitment required

### Support Included

- **24/7 Support:** Phone, email, portal
- **Training:** Admin and analyst sessions
- **Documentation:** Full knowledge base
- **Updates:** Regular feature releases
- **Success Manager:** Dedicated contact

## Contact Us

### Schedule a Demo:

See LogZilla in action with your agency's use cases. We'll show cross-agency visibility, AI-powered analysis, and compliance reporting.

### Request Pricing:

Get a custom quote based on your agency count, log volume, and deployment preferences. Cooperative purchasing available.

Protect citizens, consolidate costs, simplify compliance.
